

Investing in electric reliability and grid modernization

Transmission Line Routing Community Workshop Agenda

Thursday, Jan. 21, 2021, from 5 – 7:30 p.m.

Zoom Meeting Event

Workshop objectives:

- Review the purpose and need for the transmission line.
- Introduce the routing process and provide an overview of the study area.
- Introduce the route segments under consideration, and facilitate community conversation and feedback around initial impressions of these route segments.
- Orient the community to the online engagement site and Segment Explorer tool.
